FLORENCE MIKE

Customer Support Representative | Fintech & Forex Support

Lagos, Nigeria | [07035152579] | [mikeflorence883@gmail.com] | [LinkedIn Profile] | [Portfolio Link]

PROFESSIONAL SUMMARY

Customer-focused professional with experience in remote customer service, online marketing, customer communication, inventory record management, and personal forex trading on the MT5 platform. Skilled in responding to customer enquiries, explaining products, troubleshooting basic service and account-related issues, documenting customer concerns, escalating unresolved or sensitive cases through appropriate channels, following up on customer requests, maintaining accurate records, and communicating professionally. Developing specialized knowledge of fintech and forex customer support, including KYC/AML fundamentals, account verification, payment and withdrawal enquiries, trading terminology, and MT4/MT5 troubleshooting. Currently undertaking customer-service training and practical support simulations to strengthen service delivery, problem-solving, troubleshooting, escalation, and customer relationship management skills. Seeking a remote or hybrid Customer Support opportunity within a fintech company, forex brokerage, or financial-services organization.

PROFESSIONAL EXPERIENCE

Customer Service Representative | Remote

[VIELMAX GROUP of company] | [2021 – 2023]

- Responded to customer enquiries professionally and provided clear, relevant information to address customer needs.

- Communicated with customers through online channels to understand their concerns, identify the nature of issues, and provide appropriate assistance.

- Troubleshot basic service-related problems by asking clarifying questions, reviewing available information, and guiding customers through practical next steps.

- Assisted customers with service-related questions and worked towards satisfactory resolutions while recognizing issues requiring further investigation.

- Documented customer concerns, actions taken, and relevant details to support accurate follow-up and continuity of service.

- Escalated unresolved, sensitive, or complex issues to the appropriate team or supervisor with clear information and supporting context.

- Followed up on escalated customer requests and communicated updates professionally to help manage expectations.

- Maintained professional communication while supporting customers in a remote working environment.

- Developed practical experience in customer interaction, service delivery, troubleshooting, escalation, and relationship management.

Marketing Representative | Remote

[Company Name] | [Month Year – Month Year]

- Identified and engaged prospective customers through online channels to introduce company products and services.

- Explained product features and relevant information clearly to help customers understand available offerings.

- Responded to customer questions and investigated basic product or service concerns before providing accurate information or seeking clarification.

- Referred complex, unresolved, or specialized customer questions to the appropriate person or department when necessary.

- Followed up with prospective and existing customers regarding their product requirements and requested quantities.

- Maintained customer relationships through consistent communication, issue follow-up, and timely updates.

- Applied communication, active listening, problem-solving, and customer engagement skills to understand customer needs and support sales activities.

RELEVANT FINTECH & FOREX KNOWLEDGE

Forex Fundamentals

- Understanding of currency pairs, bid and ask prices, spreads, pips, and lot sizes.

- Knowledge of leverage, margin, free margin, equity, balance, and margin level.

- Understanding of stop-loss orders, take-profit orders, and risk-to-reward ratios.

- Familiarity with common trading terminology and basic MT4/MT5 platform troubleshooting.

- Practical experience placing and managing forex trades on the MT5 platform, including reviewing charts, monitoring open positions, and using basic trading functions.

Financial Services Customer Support

- Understanding of Know Your Customer (KYC) and Anti-Money Laundering (AML) fundamentals.

- Familiarity with customer verification and proof-of-address requirements.

- Understanding of common deposit, withdrawal, and transaction-status enquiries.

- Familiarity with account-access issues, trading-platform errors, and support escalation procedures.

- Awareness of customer-data confidentiality and the importance of following verification and security procedures.

PROJECTS & PRACTICAL DEVELOPMENT

Personal MT5 Forex Trading Experience

Self-Directed Practical Experience

- Used the MT5 trading platform to place and monitor personal forex trades.

- Gained practical familiarity with MT5 charts, currency pairs, order types, trade volume, stop-loss and take-profit settings, open positions, account balance, equity, margin, and free margin.

- Developed a practical understanding of common trading-platform functions and terminology through hands-on use.

- Reviewed trade information and account metrics to monitor positions and understand the effect of market movements on available margin and equity.

- Built familiarity with common MT5 user questions and basic platform issues that may require troubleshooting or escalation.

- Applied risk-awareness principles when reviewing trade setups and managing personal trading activity.

- built strategy for executing trades.

Forex Customer Support Simulation Project

- Practised responding to simulated customer enquiries involving deposits, pending withdrawals, account verification, and trading-platform access.

- Developed structured responses for common MT4/MT5 issues, including connection problems, invalid account details, and order-volume restrictions.

- Practised troubleshooting simulated platform and account-access issues by gathering relevant details, identifying possible causes, and providing appropriate next steps.

- Practised explaining forex concepts such as margin, equity, free margin, spreads, and trading costs in customer-friendly language.

- Worked through simulated escalation scenarios involving unresolved payment issues, verification concerns, account restrictions, and issues requiring specialist review.

- Practised documenting issue details, actions taken, escalation reasons, and customer follow-up requirements.

- Focused on professional communication, accurate explanations, customer-data protection, appropriate troubleshooting, and timely escalation.

EDUCATION

Bachelor's Degree in SCIENCE LABORATORY TECHNOLOGY
